Summary

Highly motivated B.Tech Computer Science student at Arya College of Engineering and IT with a keen interest in software development and data analytics. I have developed multiple full-stack web applications using the MERN stack, focusing on user-centric design, secure authentication, and efficient data management. In addition to web development, I possess strong analytical skills with hands-on experience in data cleaning, data visualization, and statistical analysis using Python, SQL, Excel, and basic machine learning concepts. I am passionate about transforming raw data into meaningful insights, building scalable systems, and continuously upgrading my technical skills to contribute effectively in dynamic and challenging environments.
