📍 Jaipur, Rajasthan

GJ

SUMMARY

I am a highly motivated and results-oriented B.Tech student passionate about building scalable and user-centric web applications using the MERN Stack. With a solid foundation in programming languages such as JavaScript and Python, I am eager to apply my problem-solving and collaboration skills to contribute to innovative software projects in a dynamic development environment

EDUCATION

B.Tech in Computer Science

Arya College of Engineering and IT

📅 08/2023 - 05/2027 📍 Jaipur

Senior Secondary (Class 12)

Aadarsh Bal Vidya Mandir

📅 04/2023 - 04/2023 📍 Khamer

Secondary (Class 10)

Leo International School

📅 04/2021 - 04/2021 📍 Ghato

PROJECTS

Ambulance System for Traffic Optimization

📅 01/2023 - 03/2023

A system aimed at optimizing ambulance routes and enhancing response times

- Developed a real-time traffic optimization system using AI, GPS, and GSM for live ambulance tracking
- Integrated police station & traffic authority alerts

Virtual Classroom with Real-Time Quizzes

📅 02/2023 - 04/2023

A virtual classroom environment for students to engage in quizzes in real-time

- Built a MERN stack platform with Socket.io for live quizzes and student performance tracking

Todo Application with MongoDB Atlas

📅 01/2023 - 02/2023

A task management application aimed at helping users keep track of their tasks efficiently

- Designed a responsive task manager using TailwindCSS, integrated with MongoDB Atlas for persistent data storage

STRENGTHS

Problem Solving

Strong problem-solving capability demonstrated through various projects and collaboration

Team Collaboration

Ability to work effectively in teams to accomplish project goals

Documentation

Attention to detail in documentation and project management practices

SKILLS

Beautiful Soup	Bootstrap	C/C++
CSS	Data Structures	Eclipse
EJS	Encryption	Git	GitHub
Google Firebase	Gps	HTML
Java	JavaScript	MongoDB
Microsoft Office	Postman	
Python	REST	Tailwind
Tkinter	Vercel	
Visual Studio Code	Chess	
Socket.IO	Gmail	SQLite

INTERESTS

Playing Chess

Enjoy playing chess, which enhances my strategic thinking and problem-solving skills

Traveling

Passionate about exploring new destinations and cultures

Powered by Enhancv

PROJECTS

Secrets Web App

📅 01/2023 - 03/2023

A secure platform where users can manage their secrets and access them using secure authentication

- Created a secure authentication-based web app with user registration, login, and data encryption

Price Tracker App

📅 03/2023 - 04/2023

An application designed to track and notify users about price changes of various goods

- Built a Python Tkinter-based app with BeautifulSoup for scraping and SQLite for storing price data, including USD to INR conversion
